PROFESSIONAL SUMMARY

Developer with 3+ years of hands-on experience in building scalable, high-performance web applications and APIs. Proficient in backend technologies including PHP (Laravel, CodeIgniter), Go, and Node.js. Experienced in developing RESTful APIs, integrating third-party services, and optimizing database systems with PostgreSQL and MySQL. Adept at deploying applications using Docker, managing version control with Git, and collaborating within Agile teams. Strong advocate for clean code, maintainable architecture, and automation through CI/CD pipelines.

fiqrik18.vercel.app | Bandung, Indonesia

- Collaborate with the QA team to deliver new features.
- Refactor code to make it easier to maintain.

Tech Stack: Typescript, Next.js, PostgreSQL, Open Street Map, Docker

Full Stack Developer

PT Karya Utama Kuliner - Bandung, Indonesia | | Januari, 2019– Present

- Built custom applications tailored to client requirements.
- Designed relational databases and implemented backend services using PHP and Go.
- Developed reusable UI components and improved frontend consistency using JavaScript and TypeScript.

Tech Stack: PHP, Laravel, Typescript, NodeJs, Go, Nextjs, MonIO, React Native PostgreSQL, Mysql, Docker, RabbitMQ, Gcloud, Mapbox, Kotlin, Java.

Backend Developer

PT. Waizly Technology - Bandung, Indonesia | | April, 2024 – April, 2025

- Built and maintained a social media integration system for ad management using Laravel and PostgreSQL.
- Developed RESTful APIs that improved system latency by 30%.
- Refactored legacy code to enhance scalability and performance.
- Collaborated with frontend and QA teams in Agile sprints to deliver new features.
- Implemented Redis caching to enhance data retrieval performance.

Tech Stack: PHP, Laravel, Redis, PostgreSQL

Web Developer

PT. Digital Apta Media - Bandung, Indonesia | | January, 2023 – April, 2024

- Developed and maintained a hospitality application for Samsung TIZEN and Orsay Smart TVs.
- Built responsive web interfaces and integrated with backend APIs.
- Improved page load time by 25% through code optimization.

Tech Stack: PHP, Codeigniter 3, JQuery, HTML, CSS 3, Javascript

Backend Developer

PT. Dengan Senang Teknologi - Bandung, Indonesia | | April, 2021 – November, 2022
